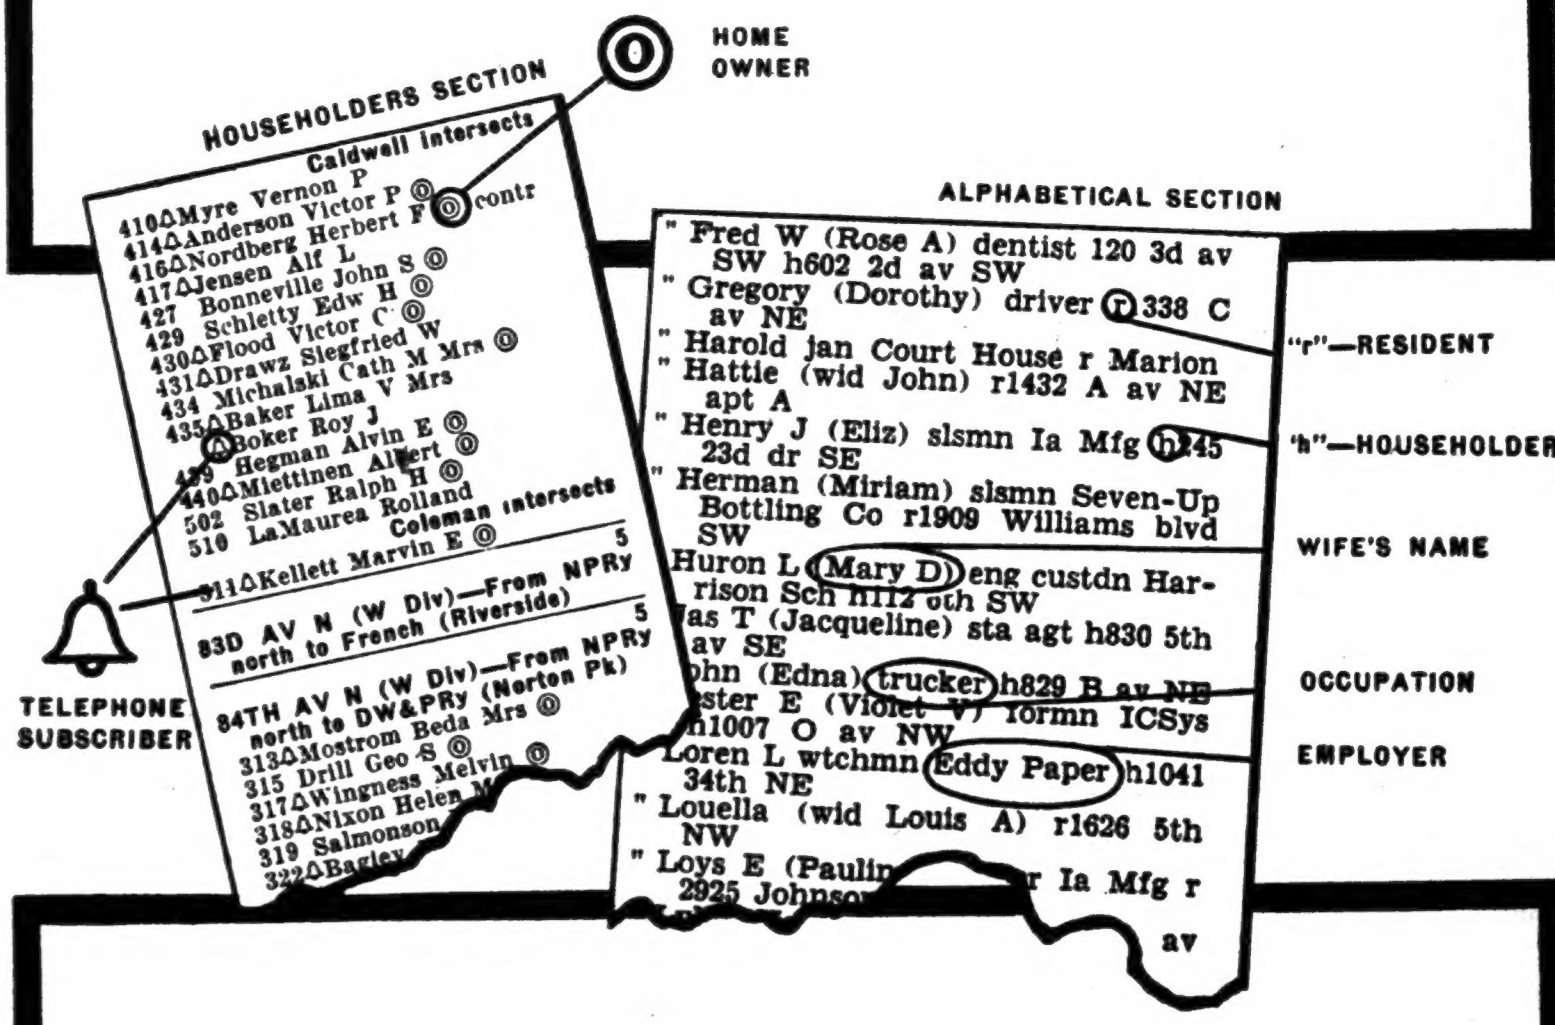
DIRECTORY SYMBOLS AND DESIGNATIONS



IN ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.

INTRODUCTION

R. L. POLK & CO., publishers of the Monterey, Pacific Grove, Carmel City and Seaside Directory, as well as more than 750 other city, county, state and national directories, present to subscribers and the general public this, the 1953 edition of the above directory, which also includes a directory of the rural free delivery box holders on the Carmel, the Big Sur and Carmel Valley routes. A new feature in this edition is the listing of telephone numbers following the name in the Householders section.

Confidence in the continued growth of Monterey's and vicinity's wealth, industry and population, and in the advancement of its municipal and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting Monterey and vicinity to the world.

The enviable place occupied by R. L. POLK & CO.'S directories in offices, stores, libraries and homes throughout the country, has been established by rendering the best in directory service. With an unrivaled organization, and having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that this directory will fulfill its mission as a source of authentic information pertaining to the community.

Six Major Departments

The several essential departments are arranged in the following order:

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 17 to 214, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Monterey and vicinity, and the name, official personnel, nature and address of each firm and corporation. A similar list for Pacific Grove is included in pages 217 to 300; for Carmel, pages 302 to 397; for Seaside, pages 415 to 501.

THE CARMEL VALLEY RURAL ROUTE DIRECTORY extends from page 399 to 413, on white paper.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE for Monterey, covers pages 505 to 561, on pink paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes. Telephone numbers as supplied to us on canvass are shown opposite the name. A similar section for Pacific Grove appears in pages 563 to 602; for Carmel, pages 603 to 646; Seaside, pages 647 to 682.

THE BUYERS' GUIDE, preceding the Classified and separately paged from 2 to 76, on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Monterey and vicinity. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed

under headings descriptive of the business represented. This is reference advertising at its best and, as such, merits a survey by all buyers anxious to familiarize themselves with sources of supply. In ambitious and progressive communities like Monterey and vicinity the necessity of having this kind of information immediately available is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 761 to 824, on canary paper. This department lists the various manufacturing, mercantile and professional interests of Monterey and vicinity in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays no small part in the daily activities of the commercial and professional world. More goods are bought and sold through the Classified Business Directory than through any other medium.

THE NUMERICAL TELEPHONE DIRECTORY for Monterey, Pacific Grove, Carmel and Seaside appears opposite page 824, on blue paper.

Community Publicity

The directory reflects the achievements and ambitions of the community, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site, and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference and serve as perpetual and reliable advertisements of Monterey and vicinity, for business men everywhere realize that the City Directory represents a community as it really is.

The Monterey Directory Library

Through the courtesy of the publishers of the Monterey, Pacific Grove, Carmel and Seaside Directory, a Directory Library is maintained in the offices of the Monterey Chamber of Commerce, for free reference by the general public. This is one of more than 600 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the directory as an advertising medium, with assurance that it will bring a commensurate return.

MONTEREY

"Golf Capitol of the World"

Statistical Review

(Courtesy Chamber of Commerce)

Date of Founding—June 3, 1770.
Date of Incorporation—April 30, 1851.
Form of Government—City Manager.
Population—19,761.
Area—5,856.5 acres.
Altitude—4 to 600 feet.
Climate—Mean average temperature 55° F. Average rainfall 18 inches.
Parks—More dedicated park acreage per capita than any other city in the United States. 153.12 acres in 5 developed, 5 undeveloped parks, a city beach, and the Monterey County Memorial Park.
Assessed Valuation—$20,062,655.00. Tax rate $2.16 per hundred.
Financial—Three commercial and savings banks.
Post Office Receipts—$103,375.14 first quarter of 1953.
Church Buildings—10.
Building and Construction—Value of building permits in first quarter of 1953, $966,905.00.
Newspapers—1 daily, 1 weekly.
Hotels—14.
Motels—29. 2 trailer parks.
Transportation—Monterey is served by the Southern Pacific Railroad, Greyhound Bus Line, and Southwest Airways.
Amusements—4 theatres. Monterey is famous for its five golf courses, tennis courts at most resorts and hotels as well as splendid court at high school, horseback riding on beautiful bridle paths, swimming, bicycling, boat riding, and unexcelled deep sea fishing.
Hospitals—1, with 55 beds.
Education—Junior college of 650 students, high school of 1000, 12 elementary schools with 5,041 students, child care center, parochial elementary and high school.
Public Libraries—2, containing approximately 50,393 volumes.
City Statistics—Police department has 26 men including Chief of Police. Fire department has 34 men including Chief and Assistant Chief.

GENERAL REVIEW

Most of the early day charm of California's first capital (from 1776 to end of 1849) under the Spanish and later under the Mexican flag is retained in the historic buildings and homes of the old town. Monterey's numerous residential districts provide beautiful natural settings for homes and gardens of people from all parts of the world who come here to take advantage of the mild climate and the warm hospitality of "Old Monterey." Here the first Constitution of the State was written at Colton Hall. Monterey became the capital of California in the same year that Philadelphia became the capital of the Atlantic colonies. The port of Monterey was named in 1602 by Sebastian Viscaino—18 years before the Pilgrims landed at Plymouth Rock.

In 1770 Father Serra founded the San Carlos Mission which he later moved to the Carmel Valley. The San Carlos church is still in use and contains the vestments of Padre Serra while his body is interred in the Carmel Mission.

Started by Mexico in 1827 and completed in 1846, the Custom House has flown the flag of two nations from its flagpole. Here Commodore Sloat first raised the stars and stripes when the United States formally took California in July 1846. It is the oldest governmental building in California and is now owned by the State of California as a Historical monument and is maintained by the Parks Commission as a historical museum.

Monterey is rich in historic lore and tradition and many fine old buildings, some of them the inspiration for the Monterey type homes which are now popular in many parts of the world, have been faithfully preserved and have proven a source of inspiration and pleasure to visitors and residents alike.

Aside from recreation, which amounts to an "industry" in this region, commercial fishing is the one big thing in Monterey. For more than 400 years, ships have played their part in the history of Monterey and now Monterey Harbor is the home port for some sixty purse seine type fishing vessels valued at approximately $6,000,000. The fishing fleet keeps the many canneries supplied with sardines and other types of fish during the fishing seasons. The $20,000,000 canning and processing plants convert the raw product into canned food which is shipped all over the world. The fishing industry, running into millions of dollars annually on the Monterey Peninsula, actually began in 1904, when F. E. Booth established the first cannery for the processing of sardines.

Artists were on the Monterey Peninsula when Robert Louis Stevenson came in 1879. They have lived and worked here ever since, and with good reason. The place has been a haven for them. They can work out of doors every month in the year. It's so insistently beautiful they never became unaware of that beauty. Land and sea have never met more spectacularly than at the Monterey Peninsula and color is brilliant under sun and intense when muted by fog. Living can be simple and fairly inexpensive and the atmosphere is conducive to creative thought.

The first newspaper was born in California—at Monterey, August 15, 1846, although it was printed on material "used to envelop the tobacco of the cigar smoked here by the natives." The editor and founder was Rev. Walter Colton, chaplain on Commodore Stockton's frigate Congress.

The Presidio of Monterey was founded by the Spaniards in 1770 and for many years was the headquarters of the 11th U. S. Cavalry and also home for part of the 76th Field Artillery. At present it is the U. S. Army Language School where students are taking specialized work in 30 foreign languages.

Fort Ord, six miles north of Monterey, is one of the west's largest Army training installations.

The U. S. Naval Postgraudate School, located in the former Hotel Del Monte, is composed of the General Line School and the Engineering School and has about 1,100 officer students. It is the only service institution accredited to grant Bachelors degrees or authorized by the Congress of the United States to confer Masters or Doctors degrees.

THE REQUISITES OF AN UP-TO-DATE CITY!

- A Good Hotel
- A First Class Newspaper
- Good Banks
- Economical Lighting Facilities
- Good Railways
- Cheap Fuel
- Plenty of Pure Water
- An Up-to-Date City Directory

PACIFIC GROVE

"City of Homes"

Statistical Review

(Courtesy Chamber of Commerce)

Form of Government—City Manager.
Population—10,985.
Hotels—6.
Auto Courts—14.
Area—Two and one-half square miles.
Altitude—Sea level to 300 feet.
Amusements—Grove Theater, Skateland, cultural and musical attractions.
City served by the Southern Pacific Railway and Greyhound Bus Lines.
Hospitals—4 nursing homes.
Churches—14.
Education—High School, with auditorium seating 1,000; 4 public elementary and 1 parochial school; Adult Education program; Cooperative nursery school; Summer music school.

GENERAL REVIEW

Pacific Grove, city of homes and home-loving people, lies adjacent to Monterey, toward the northern tip of the Monterey Peninsula. Founded as a religious retreat, in 1869, the town has grown into a prosperous and beautiful city. In 1879 the second Chautauqua in the United States was founded here.

The motorist will find attractions in Pacific Grove to make his stay one of pleasure.

For the Tourist

The tourist will find plenty of things to do and see here—Wonderful Marine Gardens to explore in glass bottom boats. Boating and bathing enjoyed under the safest conditions. Experience the thrill of angling for gamest of fish.

Municipally Owned

Nine-hole golf course, in charge of expert professional.
A number of tennis courts, roque court and horse-shoe pitching.
Heated salt-water plunge. Spring boards and life guard.
Softball field, with grandstand seating 500.
A number of supervised children's playgrounds.
The greatest number of public parks of any city of its size in the State.

A $40,000 Museum, one of the most complete of its kind. Its exhibits are visited by leading scientists from everywhere.

Butterfly Festival

The City welcomes annually the visit of the Monarch Butterflies. They come from as far north as the Canadian Rockies in October and leave in March, and have been doing so since time immemorial.

A Pageant is held in their honor about the middle of November each year, which is a colorful affair based on Indian legend, with many actors taking part. It is drawing increasingly larger audiences each succeeding year.

Pacific Grove Has Unique Personality

Pacific Grove is one of the most all-American cities in California. In its people, it is almost a bit of New England transplanted to the California coast. That is reflected in its many churches, customs, homes, personality, great voting capacity in elections, public interest in public affairs. Its people are almost entirely American for several generations past, and here they have built a beautiful city of homes where lawlessness of any sort is practically unknown. It is a city of well-kept gardens and flower lovers.

The beaches and rocks along this part of the coast offer wonderfully engaging games of "finding things" at low tide. It is natural, therefore, that at Pacific Grove has been located the Hopkins Biological Laboratory branch of Stanford University where intensive study of biology is carried on under the direction of a faculty of illustrious scientists.

The most beautiful vistas on the scenic Seventeen-Mile Drive are found on the sightseeing trip from Pacific Grove around the Drive and through Pebble Beach to Carmel.

There are many entrancing walks and bridle paths to be found in the pines behind the town.

Here are unequalled motor roads leading to wonderful drives and to a hundred and one natural points of interest.

Fort Ord, a large military camp, is but twelve miles from Pacifc Grove.

Follow the butterflies to Pacific Grove.

CARMEL

When the famous Spanish explorer, Don Sebastian Vizcaino, sailed into the nearby harbor of Monterey, in the year 1602, there were two Carmelite Friars aboard ship. They asked permission to name the region to the south of Monterey for the order to which they belonged. Thus, Carmel was named, but it was not until the year 1770, that Mission San Carlos Borromeo was constructed, and the famed Mission still stands and is in active use. Here are the burial places of Father Junipero Serra and Father Lasuen.

The city of Carmel-by-the-Sea, in an unusual setting of scenic beauty, has a distinctive and picturesque charm. An informal, individualistic community, it is situated on the pine and oak wooded slopes rising fanwise from Carmel Bay and the mile-long beach of white sand. The beach has been kept free of commercial enterprises, and the delightful small business section begins about ½ mile from the beach. There are zoning restrictions against most industrial activities, and the small shops of English, Spanish and fairytale architecture deal in staple and luxury goods, handicraft, gift and art merchandise.

The population of Carmel is cosmopolitan, with many world-famous artists, writers, poets, actors and retired military personnel residing in the lovely residential sections. There are excellent schools, library, hospital, art gallery and theatres.

Education—4 elementary schools, 1 junior high school.
Civic Organizations—Lions, Rotary, Whiskerinos, V. F. W., American Legion, Seaside Council.
Youth Center.
Statistics—Seaside operates its own fire department with 3 trucks; a Chamber of Commerce; operates its schools through Monterey high school and elementary school districts.

GENERAL REVIEW

Joining the east limits of Monterey is Seaside, California, the second largest unincorporated district in Monterey County.

The area was founded by Dr. L. D. Roberts, who developed it from grazing land for cattle into a thriving community of 16,333 persons. Dr. Roberts was a county supervisor for more than 20 years and also was largely responsible for the construction of the famous Coast Road between Carmel and San Simeon. He also aided in negotiations for the government purchase of Fort Ord Reservation which borders Seaside on the North and East.

Seaside potentially is the greatest district on the Monterey Peninsula for industrial development. It has considerable vacant property along the beaches of the Monterey Bay and along railroad lines.

The area is only a few minutes drive to the myriad of recreational facilities on the Monterey Peninsula, including Carmel, Pebble Beach.

Living within its borders are thousands of Army and Navy personnel who are stationed at Fort Ord and at the Navy General Line School.

The area has an active Chamber of Commerce, a weekly newspaper, and numerous civic and patriotic organizations. It has a new, modern theater and many modern buildings.

WHY A *Buyers' Guide?*

★ **It is customary to include a Buyers' Guide in the City Directory because:**

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

☆

The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . EXTENDED.

THE REQUISITES OF AN UP-TO-DATE CITY!

- A Good Hotel
- A First Class Newspaper
- Good Banks
- Economical Lighting Facilities
- Good Railways
- Cheap Fuel
- Plenty of Pure Water
- An Up-to-Date City Directory

POLK'S
MONTEREY
Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide
1953

Copyright 1953, by R. L. Polk & Co.

In the following list the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective places of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ● following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers as supplied to us on our canvass are shown opposite the name. We are not responsible for the accuracy of these numbers.

(This section includes some listings reading "No return." In each case the publishers tried diligently, by various means, to obtain the information from the occupants but were unsuccessful. First, several personal calls were made by an enumerator; next, a double post card was mailed and the telephone used when possible).

POLK'S
PACIFIC GROVE

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1953

Copyright 1953, by R. L. Polk & Co.

In the following list the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective places of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers as supplied to us on our canvass are shown opposite the name. We are not responsible for the accuracy of these numbers.

(This section includes some listings reading "No return." In each case the publishers tried diligently, by various means, to obtain the information from the occupants but were unsuccessful. First, several personal calls were made by an enumerator; next, a double post card was mailed and the telephone used when possible).

MORE GOODS ARE BOUGHT AND SOLD THROUGH THE CLASSIFIED BUSINESS LISTS OF THE DIRECTORY THAN ANY OTHER MEDIUM ON EARTH

Gamble's
Distinctive Home Furnishings
Fremont Extension Monterey Telephone 2-1884

POLK'S
CARMEL
Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide
1953

Copyright 1953, by R. L. Polk & Co.

In the following list the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective places of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ⓞ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers as supplied to us on our canvass are shown opposite the name. We are not responsible for the accuracy of these numbers.

(This section includes some listings reading "No return." In each case the publishers tried diligently, by various means, to obtain the information from the occupants but were unsuccessful. First, several personal calls were made by an enumerator; next, a double post card was mailed and the telephone used when possible).

POLK'S
SEASIDE
Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide
1953

Copyright 1953, by R. L. Polk & Co.

In the following list the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order and opposite the number is placed the name of the occupants or house owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective places of business; to find occupation of others refer to Alphabetical List of Names.

The symbol ◎ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers as supplied to us on our canvass are shown opposite the name. We are not responsible for the accuracy of these numbers.

(This section includes some listings reading "No return." In each case the publishers tried diligently, by various means, to obtain the information from the occupants but were unsuccessful. First, several personal calls were made by an enumerator; next, a double post card was mailed and the telephone used when possible).

"The DIRECTORY IS THE COMMON INTERMEDIARY BETWEEN BUYER and SELLER"
R. L. POLK & CO.

WHEN YOU SEE OUR NAME

on a

CITY DIRECTORY

You Can Be Assured That It Means . . .

1st — Every effort has been made to obtain accurate information.

2nd — The information therein is the latest obtainable.

3rd — The advertising department is an excellent representation of the best commercial life of the city.

4th — It is the most complete catalogue of the city published.

THE PUBLISHERS

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half consultations for each book for THREE HUNDRED and FIVE days, therefore 1000 x 3½ x 305 = 1,067,500

CASHIERS! TELLERS! CLERKS!

Do your employers furnish you with the latest edition of the City Directory?

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

WHY A *Buyers Guide?*

★ ***It is customary to include a Buyers' Guide in the City Directory because:***

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

☆

The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . *EXTENDED*

Out of Sight • Out of Mind

★ *Out of Business* ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

★

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

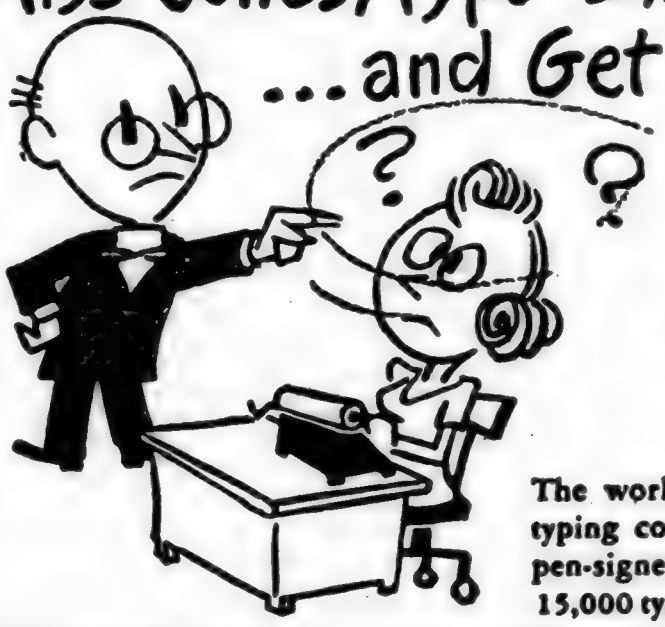
"Miss Jones, Type 2,500 Personal Letters ...and Get 'em Out Today!"



Do you want *real response* from your customers and prospects? *A personally-typewritten letter gets the highest results!*

But you don't have the time, or facilities? And you can't afford the expense of hiring 30 typists? R. L. Polk & Co.'s Automatic Typewriter Division has the answer for you!

The world's largest battery of automatic typewriters—typing completely personalized letters, each individually pen-signed—can produce 500 or 15,000 typewritten letters for you, READY TO MAIL—in a matter of hours. *And the cost is a fraction of what it would cost you to do it yourself.*

Simply send along your list, your letterheads and envelopes, your instructions. Or, ask for complete information from:

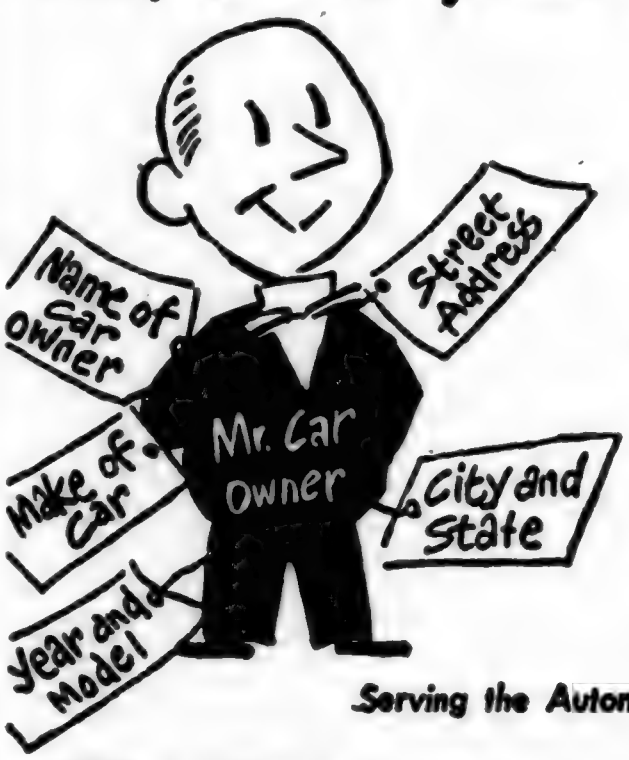
...About Your Car Owner Lists



Whatever information an auto owner puts on his license application appears on the new Polk official car owner registration list, now available to you. Every name on a Polk car owner list is "cleaned" ahead of time. Only names of persons to whom mail can be delivered are compiled for you. Polk Car Owner Lists are not "loaded" with extra names that would waste your time and money in sending out mail, or in making personal calls.

Success or failure of any direct mail advertising program depends on your keeping that list up to date.

Serving the Automotive Industry and Its Dealers Since 1923

WHY A *Buyers Guide?*

★ *It is customary to include a Buyers' Guide in the City Directory because:*

It gives business firms the opportunity to elaborate upon a description of their products and services impossible in the limited space of regular Alphabetical and Classified listings.

☆

The Buyers' Guide is a necessary supplement to the regular listings; it is good City Directory information . . . *EXTENDED*

World's "Largest Circulation"

Names and addresses of 39,977,700 passenger car owners and 8,427,900 truck owners . . . families and concerns who buy more than three-fourths of the nation's consumer goods . . . arranged by street and number . . . by city, county and state . . . by make of vehicle and year model . . . are available to the nation's largest advertisers. Yearly, R. L. Polk & Co. compiles for the automotive industry the official registration list of car and truck owners — the largest, most accurate mailing list in the world.

Through this great "circulation list," and through Polk's nation-wide direct mail advertising distribution facilities, the automotive industry and hundreds of other major concerns reach selected markets for their products . . . send advertising messages pin-pointed to the very prospect or customer they wish to reach . . . each advertising message imprinted with the local dealer's firm name and address, and sent to his own selected sales territory.

This world's greatest "circulation list" is a major sales tool used by industry to help move the goods and services that keep our economy rolling, helping to sell not only automobiles, but oranges, magazine subscriptions, vacation tours, and household appliances.

Serving the Automotive Industry and its Dealers since 1923

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

Association of North American Directory Publishers

16th Floor, 244 Madison Ave. New York 16, N. Y.

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

Association of North American Directory Publishers

16th Floor, 244 Madison Ave. New York 16, N. Y.

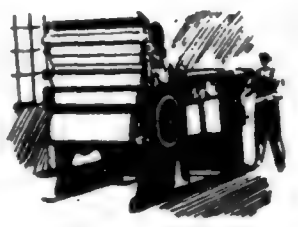
The Services of R. L. Polk & Co.

DIRECTORY PUBLISHERS FOR 750 CITIES

Polk City Directories have been the accepted basis for population listings in hundreds of American cities. These directories, compiled regularly, provide detailed information concerning the name, address, occupation and other important information about all adult residents of a city. In addition to local circulation, Polk cooperates in the maintenance of City Directory Reference Libraries in cities throughout the U.S. and Canada. *The priceless ingredient of a City Directory is the accuracy with which it is made; accuracy is the product of experience; Polk has been compiling City Directories since 1870.*

DIRECT MAIL ADVERTISING FOR LEADING INDUSTRIES

Polk's Direct Mail Advertising Division—one of the world's largest—specializes in high-quality, productive advertising. America's largest industries are Polk's long-time clients. Polk's direct mail advertising is *complete* . . . consultation, research, testing, creating, printing, producing, and distributing to selected prospects. Polk's production plants are geared to handle more than two million mailings daily. Included in its production facilities is the world's largest battery of imprinting presses and the world's largest installation of automatic typewriters. *Polk's direct mail advertising services are dedicated to helping business men produce increased sales volume.*



NATIONAL MAILING LISTS AND MAILING SERVICES

The people of America are in Polk's list files . . . all businesses, trades, professions, and vocations . . . obtained through personal canvass. Polk also lists all automobile and commercial vehicle owners—by make of car or truck, by model, by year, by state, county and city. Mailing lists of one kind or another, totaling more than 60,000,000 names a year, are compiled for Polk clients. Facilities for multigraphing, typing, letter-press or offset printing, questionnaires or letters, and complete addressing, imprinting and mailing services are available. *Polk can reach the right prospects DIRECT, with the right kind of message.*

AUTOMOBILE AND BUSINESS STATISTICAL HEADQUARTERS

Since 1922 Polk has been statistician for the automotive industry. Polk total count of passenger cars, trucks, motorcycles and trailers by make, by year model, is the only annual inventory of the country's automotive equipment. Polk's new car passenger and truck reports furnish manufacturers and dealers with a monthly recapitulation of all sales for each territory . . . The first business census of the U.S. was a Polk project, giving statistics covering the number of manufacturers, wholesalers and retailers for each state, county and town. *Using Polk statistical services American business is able to plan intelligently its production, distribution and sales.*

SURVEYS AND CONSUMER RESEARCH

Fast, accurate research surveys and analyses, based on experience gained through nation-wide home and business canvasses, are provided by the Polk Consumer Research Division.

POLK BANKER'S ENCYCLOPEDIA

Polk's semi-annual directory of the banks of the nation is the outstanding Directory in the banking field. Polk reports on the condition of the nation's banks, their officers and directors, including a detailed statement on each bank, as well as listing investment dealers, stock exchange members, insurance companies, and other general financial data.

Directory Branches in 30 Cities . . . Direct Mail Branches in 7 Cities

Serving American Business Since 1870

Your City Directory has

HUNDREDS OF USES AND APPLICATIONS

BUYING

Learning new sources of supply.
Keeping up with known sources of supply.
Checking on the record of firms from which you buy as to dependability, stability, etc.

SELLING *(Including market analysis and sales promotion)*

Locating new markets.
Maintaining up-to-date mailing lists.
Analyzing the buying power of a community or street.
Routing salesmen to avoid lost motion in reaching prospects.
Locating residents of hotels and apartment buildings, many of whom are listed nowhere else.
Identifying names and titles of officials, for use of salesmen.

CREDIT REFERENCE *(and Collections)*

Running down delinquent debtors.
Checking credit applications as to address, moving habits, names of employers, stability of employment, family status, neighbors, whether owner or renter, etc.
Identifying persons of same or similar names.
Investigating cases in welfare, charitable, social service and legal work.

DELIVERY *Communication, Mailing, Etc.*

Routing deliveries.
Reducing dead letters and insuring more complete delivery of mail.
Effecting delivery of messages and parcels erroneously or defectively addressed.
Correcting names and titles.

LAW ENFORCEMENT *Criminal Detection and Apprehension*

Tripping bad-check passers.
Deciphering illegible signatures.
Guarding against habitual bill dodgers.
Tracing heirs and witnesses, settling estates, and establishing facts as of a certain date.
